

INNOVATIVE POOL MANAGEMENT
made by BEHNCKE GmbH

We give our best to your pool – that is aquavision® pool management by BEHNCKE. Highly precise technology, particularly high-quality components, innovative filter technology and minimised use of chemicals combine into an innovative pool management bundle solution.

Fine-tuned to the requirements and needs of our customers, BEHNCKE GmbH is your one-stop shop:

Control unit, water filtration with particularly effectively used water treatment products, measurement technology and numerous other components make the aquavision® pool management system the ideal solution for existing and aspiring swimming pool owners. In addition, the coordinated parts facilitate installation and maintenance.

aquavision® BASIC

The complete bundle for all those looking for an innovative water treatment system for their private pool. Crystal-clear water with permanently minimal use of chlorine turns your private pool into a great water experience.

OUR RECOMMENDATION: As an alternative to the 6-way valve and the Deluxe 13 filter pump (DRESDEN² filter system), order the Besgo 1 1/2 rod valve and the Deluxe ECO VS circulation pump as an upgrade and benefit from optimum energy consumption.

■ Water treatment ■ Integrated parts ■ Pool heating ■ Dehumidification ■ Pool cleaning ■ Pool + accessories ■ PVC fittings + pipes
