

**INNOVATIVE POOL MANAGEMENT**  
made by BEHNCKE GmbH

We give our best to your pool – that is aquavision® pool management by BEHNCKE. Highly precise technology, particularly high-quality components, innovative filter technology and minimised use of chemicals combine into an innovative pool management bundle solution.

Fine-tuned to the requirements and needs of our customers, BEHNCKE GmbH is your one-stop shop:

Control unit, water filtration with particularly effectively used water treatment products, measurement technology and numerous other components make the aquavision® pool management system the ideal solution for existing and aspiring swimming pool owners. In addition, the coordinated parts facilitate installation and maintenance.

**aquavision® PREMIUM**

The complete bundle for all those looking for the ideal solution for their private pool. Crystal-clear water and optimum energy consumption, permanently minimised chlorine need and best possible saving of resources facilitate the use of private pools.

■ Water treatment ■ Integrated parts ■ Pool heating ■ Dehumidification ■ Pool cleaning ■ Pool + accessories ■ PVC fittings + pipes

Your local retailer

**aquavision® PREMIUM**  
We give our best to your pool

**OUR RECOMMENDATION:** As an alternative to the aquavision® SMART bundle, order our BEHNCKE Connect control unit as an upgrade and benefit from even more comfortable operation.
